

INTELLIMETER CANADA INC.

MEASURE, ANALYZE & CONSERVE:

* Electricity * Water * Gas * Heating & Cooling
Volts - Amps - KiloWatts - Power Factor - Peak Demand

Intellimeter Canada Inc. (ICI) develops a comprehensive line of energy meter solutions and distributes to a range of private and public sector clients. We enable customers with accurate energy information that strengthen conservation and energy accountability and help to promote lean property management.

APPLICATIONS:

- Monitor for Energy Conservation Initiatives
- Load Management & Balancing
- Cost Allocation / Tenant Billing
- Branch Circuit Monitoring

ICI systems offer secure revenue class data collection plus the advantage of segregated data integration for Building Management Systems to support GREEN energy initiatives and LEED programs. ICI offers accredited metering solutions through our in-house certified sealing, research facilities and cloud-based portal.
